E_HANAAW_14 - SAP Certified Development Specialist - ABAP for SAP HANA 2.0

Description

The "SAP Certified Development Specialist - ABAP for SAP HANA 2.0" certification exam verifies that the candidate has the knowledge of programming ABAP for SAP HANA required by the profile of an SAP ABAP development consultant. This certificate builds on both the basic knowledge gained in related ABAP-for-HANA training and documentation, as well as on practical experience gained as a member of a SAP HANA team, where the candidate would apply this knowledge practically in projects. It is highly recommended that you have passed one of these certification exams for the "SAP Certified Development Associate - ABAP with SAP NetWeaver" (C_TAW12_70, C_TAW12_71, C_TAW12_731, C_TAW12_74, C_TAW12_750).

Notes

To ensure success, SAP recommends combining education courses and hands-on experience to prepare for your certification exam as questions will test your ability to apply the knowledge you have gained in training. Get Certified by taking online course from www.anubhavtrainings.com, Mr. Anubhav will cover all the concepts needed to make your certify.

You are not allowed to use any reference materials during the certification test (no access to online documentation or to any SAP system).

Topic Areas

Please see below the list of topics that may be covered within this certification and the courses that cover them. Its accuracy does not constitute a legitimate claim; SAP reserves the right to update the exam content (topics, items, weighting) at any time. Get trained today by taking online training from [here](#), check some free demo [here](#)

Guided Performance Analysis> 12%

Perform Guided Performance Analysis using appropriate tools to determine which ABAP applications should be optimized when migrating to SAP HANA.

HA400 (SAP HANA 2.0 SPS02)

----- OR -----

SAP LH LR "ABAP for SAP HANA"

Integration of SAP HANA Coding into ABAP Programs> 12%

Approach the code-to-data paradigm using 'top-down' techniques, using Core Data Services views and ABAP managed database procedures

HA400 (SAP HANA 2.0 SPS02)

General Information

Exam Preparation

IMPORTANT: All SAP consultant certifications are now available as Cloud Certifications in the Certification Hub and can be booked with product code CER006. With CER006 – SAP Certification in the Cloud, you can take up to six exams attempts of your choice in one year – from wherever and whenever it suits you! Test dates can be chosen and booked individually. Those of you who prefer to get certified on-site at an SAP training center instead can still do so. Official dates for the certification tests are listed on the right.

Each specific certification comes with its own set of preparation tactics. We define them as "Topic Areas" and they can be found on each exam description. You can find the number of questions, the duration of the exam, what areas you will be tested on, and recommended course work and content you can reference.

Certification exams might contain unscored items that are being tested for upcoming releases of the exam. These unscored items are randomly distributed across the certification topics and are not counted towards the final score. The total number of items of an examination as advertised in the Training Shop is never exceeded when unscored items are used.

Please be aware that the professional- level certification also requires several years of practical on-the-job experience and addresses real-life scenarios.

For more information refer to our [Take your SAP Certification Exams](#) and our [FAQs](#).

Safeguarding the Value of Certification

SAP Education has worked hard together with the Certification & Enablement Influence Council to enhance the value of certification and improve the exams. An increasing number of customers and partners are now looking towards certification as a reliable benchmark to safeguard their investments. Unfortunately, the increased demand for certification has brought with it a growing number of people who to try and attain SAP certification through unfair means. This ongoing issue has prompted SAP Education to place a new focus on test security. Please take a look at our [post](#) to understand what you can do to help to protect the credibility of your certification status.

Our Certification Test Security Guidelines will help you as test taker to understand the testing experience.
